RCLS Launches Expanded eBook Collection and New Digital Initiatives

Riverside, CA – [Date] – The Riverside County Library System (RCLS) is pleased to announce the launch of an expanded eBook collection, funded through a generous eBooks for All grant from the Library Services and Technology Act (LSTA). This funding allows RCLS to enhance its digital offerings and make a broad range of eBooks available to all patrons via The Palace Project app. This initiative underscores RCLS's commitment to providing equitable access to information, resources, and opportunities for the entire community.

To further enrich patrons' digital experience, RCLS is introducing several new initiatives:

- **The Palace Project App:** Patrons can now explore a diverse selection of eBooks and audiobooks through The Palace Project app. Additionally, the app features content from local authors on BiblioBoard, including award-winning titles from the Indie Author Project. The app also integrates access to content from other digital sources, such as CloudLibrary, for a seamless experience.
- **Digital Story Times:** We invite the community to join us for our special digital storytime events at each library location, with content powered by TeachingBooks, which provides thousands of titles with digital learning resources. Each library will have the option to incorporate digital storytimes as a regular or periodic program based on community interest.
- **Community Workshops:** RCLS branches will also host community workshops—available in-person, via Zoom, or through surveys—to help brainstorm and shape future library programming.

RCLS encourages the community to explore these new digital offerings and experience the benefits of expanded access to digital resources.

About RCLS The Riverside County Library System is committed to providing exceptional library services to the residents of Riverside County. With a network of branches throughout the county, RCLS offers a wide range of resources and programs for all ages.
